

## Teach polypropylene cool new tricks.

With Vistamaxx elastomers as a blend partner, polypropylene can perform in a whole new way.

Vistamaxx™ specialty elastomers let you demand more from existing polypropylene applications – and might even lead you to new ones. This versatile portfolio of products can improve strength, softness, flexibility and clarity. Because they're halogen-free and lighter weight, Vistamaxx specialty elastomer / polypropylene blends may be an effective alternative in PVC applications.

How cool would that be? *Fetch more information on [gomaxxgo.com](http://gomaxxgo.com).*
